

NEWS RELEASE – Farnborough, Hampshire, UK/July 17, 2016

Tech Castings LLC (www.techcastings.com) exhibits at the Farnborough International Airshow.

Tech Castings LLC – a private IN-based foundry specializing in investment casting of vacuum-melt superalloy turbine engine components serving a worldwide commercial and military aerospace customer base – recently exhibited for the first time at the 2016 Farnborough International Airshow (FIAS).

As part of a delegation of Indiana-based companies serving the Aerospace and Defense industries organized by the Indiana Economic Development Corporation (IEDC), Tech Castings occupied a trade show booth at the FIAS, the biennial showcase for the world of aviation which took place at the Farnborough Airport in Hampshire, UK on 11th – 17th July 2016.

With over 1,500 exhibitors from all over the world, FIAS provides the most diverse range of exhibitors from core sectors of the aerospace industry: Space, Civil, Military, Manufacturing Technology, Rotary and MRO.

For **Tech Castings**, FAIS provided global exposure for our Precision Aerospace Investment Casting capabilities, along with an opportunity to network with industry colleagues. A presence at FAIS also supports **Tech Castings'** position as a robust and growing supplier-partner to Aerospace and Defense OEM's worldwide.

For more information about **Tech Castings LLC**, contact Mark Rabens, VP Business Development, at mrabens@techcastings.com.

About the IEDC – The Indiana Economic Development Corporation (IEDC) leads the state of Indiana's economic development efforts, focusing on helping companies grow in and locate to the state. Governed by a 12-member board chaired by Governor Mike Pence, the IEDC manages many initiatives,

including performance-based tax credits, workforce training grants, public infrastructure assistance and talent attraction and retention efforts.

For more information about the IEDC, visit www.iedc.in.gov.
